

Rental Request & Extension Forms

Standard Operating Procedure — Technician Self-Serve Intake & Fleet Review

Sears Home Services · Fleet Operations | Version 1.0 | August 23, 2026 | Screenshots use sample data

Contents

1. Overview — what the form is and how technicians reach it
2. Technician walkthrough — requesting a NEW rental
3. Technician walkthrough — requesting an EXTENSION
4. Messages the technician may see (and what they mean)
5. Fleet staff — reviewing and answering requests
6. Status vocabulary reference

1. Overview

The rental request form is a single mobile-friendly page where a technician asks Fleet for a rental vehicle — either a **new rental** (van is down, or a new hire has no van yet) or an **extension** (more time on a rental they already hold). It replaces calling Holman.

- **One permanent link:** <https://SHS-Nexus.replit.app/rental-request> — no login, no app. It works from a phone standing next to a dead van. The technician proves who they are by entering their LDAP; the form checks it against the technician roster.
- **How technicians get the link:** it can be posted/shared anywhere (it is permanent), the weekly extension-reminder text includes it, and every Fleet decision text (approval, send-back, denial) includes it where relevant.
- **One request at a time:** the form refuses a second request while one is already open, and allows one filed request per day. This is deliberate — it keeps Fleet working a single ticket per technician.
- **Nothing is booked by the form itself.** Submitting creates a request for Fleet to review. The technician is told the decision by text.

2. Technician walkthrough — requesting a NEW rental

- 1 **Open the link and enter your LDAP.** Type your LDAP (e.g. JSMITH1) and press **Start**. If the LDAP is not on the roster the form says so — check spelling, or contact Fleet if you just started.

The screenshot shows a mobile application interface for SEARS HOME SERVICES. At the top, a dark blue header bar contains a white icon of a van and the text "SEARS HOME SERVICES" and "Fleet Operations · Rental Vehicle Request". Below the header, a light blue box contains the title "Rental request" and a paragraph: "Start here if your work van is down, or you need a rental and do not have a van yet. Enter your LDAP to begin." Below this text is the label "Your LDAP" followed by a text input field containing the placeholder text "e.g. JSMITH1". Below the input field is a blue button with the text "Start". At the bottom of the page, the text "SEARS HOME SERVICES · FLEET OPERATIONS" is displayed in a small, light blue font.

Fig. 1 — The landing screen. LDAP only; no password.

- 2 Confirm your identity.** The form shows what Fleet has on record — name, truck, district, state, mobile. If it is right, tap **Correct**. If anything is wrong, tap **Something's wrong** and fix the truck number or mobile number (10 digits), or explain in the box. **The mobile number matters most** — every decision arrives by text at this number.

SEARS HOME SERVICES
Fleet Operations · Rental Vehicle Request

1 Is this still right?
From our records. Tell us if anything is wrong.

Name JOHN SAMPLE
LDAP JSMITH1
District 4766
State NC
Mobile (555) 555-0123

Correct Something's wrong

What do you need?
Our records do not show a current rental for you.

New rental — I need a vehicle and do not currently have a rental.

Extension of my current rental — I already have a rental and need more time on it.

Driver eligibility
Enterprise requires every driver to be 21 or older.

Are you 21 years of age or older?

Select

1 Is this still right?
From our records. Tell us if anything is wrong.

Name JOHN SAMPLE
LDAP JSMITH1
District 4766
State NC
Mobile (555) 555-0123

Correct Something's wrong

Fix what is wrong below.

Truck number Mobile number
(555) 555-0123

Anything else that is wrong? (optional)

What do you need?
Our records do not show a current rental for you.

New rental — I need a vehicle and do not currently have a rental.

Extension of my current rental — I already have a rental and need more time on it.

Fig. 3 — "Something's wrong": edit truck / mobile, or explain.

- 3 Pick what you need.** The form pre-selects based on Fleet's records (if records show you already hold a rental, it defaults to Extension). You can override it — records can lag — but the form will ask for one line explaining why.

- 4 Answer the questions.** The table below lists every question and what a good answer looks like. Fig. 4 shows a fully completed example.

Question	What is expected
Are you 21 years of age or older?	Enterprise will not rent to drivers under 21. Answering No stops the form — contact Holman (ARI) instead; they can book through Avis or Hertz.
What issues are you having with your work van?	Pick the closest match: <i>New hire</i> (no van yet) · <i>Breakdown</i> (won't run/drive, or decommissioned) · <i>Accident or collision</i> · <i>Scheduled maintenance</i> . Accident adds an "Are you okay?" question — if you are hurt, call 911 first. This form can wait.
Is your van being towed?	Yes / No. Skipped for new hires.
Describe the issue	Your own words, as much detail as possible: what happened, when, any warning lights, what you already tried. This is what Fleet reads first.
Repair shop — name, street, city, state, phone	This one needs to be right. Fleet calls the shop to check on your van. Use the shop's real business phone (10 digits).
Date your van goes into the shop	Your rental starts on this date — not before.
Which Enterprise location?	The branch where the reservation is made and where you pick the rental up. Google "Enterprise Rent-A-Car near me" and copy the name + street. No airport branches if avoidable. <i>New hires answer this plus their first day on the road instead of the shop questions.</i>
Acknowledgements	One combined checkbox for the request statements (not scheduled maintenance; van cannot be driven safely; return within 1 working day of van completion; information accurate) plus four individual terms: working-hours use only, return before 3+ days off, request an extension every 7 days, discipline up to termination for misuse. All boxes are required and recorded with the request.

1 Is this still right?

From our records. Tell us if anything is wrong.

Name	JOHN SAMPLE
LDAP	JSMITH1
District	4766
State	NC
Mobile	(555) 555-0123

Correct

Something's wrong

What do you need?

Our records do not show a current rental for you.

New rental — I need a vehicle and do not currently have a rental.

Extension of my current rental — I already have a rental and need more time on it.

Driver eligibility

Enterprise requires every driver to be 21 or older.

Are you 21 years of age or older?

Yes

2 What issues are you having with your work van?

Pick the closest match, then tell us what happened in your own words.

Breakdown: my work van will not run or drive, o...▼

Is your van being towed?

No

Describe the issue you are experiencing, in as much detail as possible

Van will not start - it cranks but does not turn over. No warning lights before this. Happened this morning at my first stop.

3 Where is your work van being repaired?

Your rental starts on the day your van goes into the shop, not today, so we need the shop and the appointment before we can book anything.

Name of the repair shop

Midas Auto Service - Portsmouth

Street address of the shop

2841 Airline Blvd

City

Portsmouth

State

VA

Phone number for the shop

7575550123

Fleet calls the shop to check on your van, so this one needs to be right.

Date your van goes into the shop

08/24/2026

Your rental starts on this date.

Which Enterprise location do you need the reservation to be made? (no airports, if possible)

Enterprise, 3120 Victory Blvd, Portsmouth VA

This is where your rental will be. It has to be right.

Your reservation is sent to this location and this is where you pick the car up. If you do not know it, stop and Google "Enterprise Rent-A-Car near me" right now, and type in the name and street of the closest branch.

4 Before you submit

The first box covers the request statements. The four terms of use are agreed to one by one. All are recorded with your request.

☒ I acknowledge and agree to all of the following:

- This is not scheduled maintenance. I understand rentals are not provided for oil changes, tires, preventive maintenance or inspections.
- My vehicle cannot be driven safely to complete my route.
- I will return the rental within 1 working day of my vehicle being ready, and I understand failing to do so is a cost to the business.
- The information above is accurate and may be verified against shop records.

☒ I understand the rental is only for use while working. Off the clock use is not allowed, and I will not drive it outside of my working hours.

☒ I understand I must turn the rental in before any time off of more than 3 days, including vacation or a leave of absence.

☒ I understand I must request a rental extension from Fleet every 7 days for as long as I keep the rental.

☒ I understand any violation of these terms can result in disciplinary action, up to and including termination.

Submit request

SEARS HOME SERVICES · FLEET OPERATIONS

Fig. 4 — A completed new-rental request (breakdown at a shop), ready to submit.

AFTER SUBMIT

The technician sees **"Request received — Fleet has your request and will review it. You will get a text as soon as it is decided."** No confirmation number yet: booking only happens after Fleet approves.

3. Technician walkthrough — requesting an EXTENSION

An extension is **more time on the rental you already have** — never a different vehicle. Policy requires an extension request **every 7 days** while you hold a rental; the automated Fleet reminder text also links here. Steps 1-2 (LDAP + identity) are identical; the form then shows the rental Fleet believes you hold and asks five questions about the repair.

Question	What is expected
Your current rental (shown, not asked)	Vehicle, vendor, start date, days so far, extensions so far, location — from Fleet's records. If this is not the rental you hold, say so in the first answer box.
What is the current status of your van's repair?	Where the van is and what state it is in — e.g. "Still at the shop, waiting on a transmission part."
When did you last speak with the shop?	A date. Fleet expects technicians to be checking on their own van — "last week" answers get called.
What did the shop say?	Their actual words — e.g. "waiting on a transmission part, due Thursday."
When does the shop expect the van to be done? (optional)	Date, if the shop gave one.
Roughly how much longer do you need the rental?	Plain estimate — "about one more week."
Acknowledgements	The full set again. Extensions re-sign every term, every week — that is deliberate.

1 Is this still right?

From our records. Tell us if anything is wrong.

Name	JOHN SAMPLE
LDAP	JSMITH1
Truck	046047
District	8184
State	CA
Mobile	(555) 555-0123

Correct

Something's wrong

What do you need?

Our records show you currently have a rental.

New rental — I need a vehicle and do not currently have a rental.

Extension of my current rental — I already have a rental and need more time on it.

Your current rental

From Fleet's rental records.

Vehicle	24 JEEP GCHP
Vendor	Enterprise Rent-A-Car
Started	2026-08-13
Days so far	7
Extensions so far	0
Location	WALNUT CREEK, CA

2 How is your van's repair going?

An extension is more time on the rental you already have. Fleet reviews these answers before approving the extra time.

What is the current status of your van's repair?

Van is still at the shop - they are waiting on a transmission part before they can finish.

When did you last speak with the shop?

08/23/2026

What did the shop say?

Part due Thursday, install Friday morning.

When does the shop expect the van to be done?
(optional)

08/27/2026

Roughly how much longer do you need the rental?

About one more week

3 Before you submit

These apply to every week of the rental, so each extension signs them again. All are recorded with your request.

☒ I acknowledge and agree to all of the following:

- This is not scheduled maintenance. I understand rentals are not provided for oil changes, tires, preventive maintenance or inspections.
- My vehicle cannot be driven safely to complete my route.
- I will return the rental within 1 working day of my vehicle being ready, and I understand failing to do so is a cost to the business.
- The information above is accurate and may be verified against shop records.

☒ I understand the rental is only for use while working. Off the clock use is not allowed, and I will not drive it outside of my working hours.

☒ I understand I must turn the rental in before any time off of more than 3 days, including vacation or a leave of absence.

☒ I understand I must request a rental extension from Fleet every 7 days for as long as I keep the rental.

☒ I understand any violation of these terms can result in disciplinary action, up to and including termination.

Submit extension request

SEARS HOME SERVICES · FLEET OPERATIONS

Fig. 5 — A completed extension request, showing the current-rental card and repair-status answers.

AFTER SUBMIT

"Request received" plus **"Keep the rental until you hear from us."** The technician keeps driving the rental — an extension request is never a reason to return it.

4. Messages the technician may see

Situation	Message and what to do
LDAP not on roster	We could not find that LDAP on the technician roster. Check the spelling, or contact Fleet if you have just started.
Already filed today (daily cap)	You have already filed a rental request today and Fleet is working it. Contact Fleet directly if something has changed. Do not try to file again — call/text Fleet.
A request is already open	You already have rental request #<no> with us (<status>). Fleet is working it. Contact Fleet rather than starting a second one.
Under 21	Enterprise does not rent to drivers under 21... Contact Holman (ARI) instead. They are the only ones who can put you in a rental, through Avis or Hertz. The request is recorded, closed, and Fleet is notified.
Texted link invalid	This link is invalid or has expired. Use the permanent link instead: <code>.../rental-request</code>.
Fleet needs more info (send-back text)	Sears Fleet: we cannot approve rental request #... yet because we still need <items>. Finish it here: <link> Your earlier answers are saved. Reopen the link — earlier answers are pre-filled; only the missing items are asked.

5. Fleet staff — reviewing and answering requests

- 1 Work from the Rental Requests board** (Rental Reduction → Rental Requests). The funnel at the top shows form traffic; the tabs split **New requests** from **Extensions**. Each row carries the engine's recommendation (**APPROVE** **DENY** **DEFER** **REVIEW**), the net-\$/day economics, and the rule that fired. Extensions always arrive as REVIEW — a person decides every extension.

Fig. 6 — The Rental Requests board: funnel, KPI cards, and the request list with engine recommendations.

- 2 Open the request drawer.** Clicking a row shows everything the technician answered, the profitability factors behind the recommendation, and the decision buttons. The engine recommends; **you decide**.

Fig. 7 — The decision drawer: request details, profitability factors, and APPROVE / DENY / DEFER.

Approving a NEW rental

- **Pickup date** defaults intelligently: a request approved on **Friday defaults to Monday pickup** (no weekend rental days we pay for while the tech is off). Override it if the tech works Saturday.
- **The approval text is editable.** The standard text reads:

Sears Fleet: your rental request is approved. We are booking the reservation for pickup {{pickup_day}} {{pickup_date}} and will text you the confirmation number and branch.

The Monday variant adds the Uber-home offer. What is in the box is exactly what sends — edit it when the situation needs it.

- **Booking is automatic after approval.** The system quotes and reserves with Enterprise (20–30 seconds); the technician then gets a second text with the confirmation number, the actual branch address/phone, and instructions (bring driver's license, billing is direct to Sears, decline insurance and upgrades).
- If booking fails, the drawer shows the failure — retry from there; do not book manually unless the drawer says to.

Approving an EXTENSION

- The drawer asks for the **reservation / RA number** (required) and **extra days** (1–30, defaults to 7). That is the whole action — **approving an extension never books a new vehicle.**

- The technician gets a fixed text:

Sears Fleet: your rental extension is approved. We are arranging the extra time with Enterprise – keep the rental, no action needed unless we text you.

- On first approval the system emails Enterprise (North Central Account Support) with the renter, RA number and additional days — **Howard Anderson and Tyler Morgan are always CC'd.** Re-approving does not duplicate the email; use the Resend button if Enterprise asks again.

Other decisions

Decision	What happens
DENY	Tech is texted: Sears Fleet: your request was not approved... Reply to this message if your situation has changed. Denials are recorded with the reason — they are the number that justifies this program.
DEFER	Same-day / wait-on-it cases. The request stays open, waiting on a person.
SEND BACK (RETURN)	Use when the request is missing something (wrong shop phone, no Enterprise branch...). The tech is texted exactly what is missing plus the link; their earlier answers are saved and only the gaps are asked.

TIMING

Every decision text goes to the mobile number the technician confirmed at the top of the form. Decide during working hours when possible — the tech may need to act (pick up the rental, call the shop) on what you send.

6. Status vocabulary reference

Status	Meaning
pending	Waiting on Fleet — nobody has decided yet.
approved	Decision made; a new rental may still be booking with Enterprise.
booked	Enterprise reservation confirmed — terminal for the request; the decide buttons refuse it.
denied	Refused, with reason; tech notified by text.
deferred	Parked for a person to revisit.
returned	Sent back to the technician for missing information.

Booking: in progress / failed / attention	The automatic Enterprise booking after approval — failures surface in the drawer for retry.
